

AMR HAMDY SAAD

Junior Software Developer

Cairo, Egypt | amrhamdys54321@gmail.com | +20 115 342 7931 | github.com/A34mr

PROFESSIONAL SUMMARY

Motivated Computer Science student at the Egyptian E-Learning University (EELU) with a solid foundation in software development, networking, and data analysis. Experienced in Java, C++, HTML5, CSS3, and MySQL through academic coursework and hands-on training at the Information Technology Institute (ITI). Built a full-stack MERN application (Dent AI) integrating an AI diagnostic model, real-time messaging, and REST APIs. Certified in Cisco CCNAv7 networking, Huawei HCIA Artificial Intelligence, and advanced data analysis. Seeking a Junior Software Developer role to apply programming skills and contribute to building scalable, efficient software solutions.

TECHNICAL SKILLS

- Programming Languages: Java, C++, JavaScript, HTML5, CSS3, SQL (MySQL)
- Web & Backend: Node.js, Express, React, REST APIs, Socket.IO, JWT Authentication
- Databases: MySQL, MongoDB (Mongoose ODM), relational & NoSQL schema design
- Core Concepts: Object-Oriented Programming, Data Structures, Algorithms, Database Design
- Networking: IPv4/IPv6 Addressing, Router & Switch Configuration, VLANs, Network Security
- Tools: Git, Cisco IOS, Microsoft Office Suite
- AI/ML: Huawei HCIA-AI Fundamentals, Neural Networks Basics, applied AI integration (Hugging Face APIs)

PROJECTS

Dent AI — Smart Dental Clinic Platform

2026

Full-stack MERN application (React, Node.js/Express, MongoDB, Socket.IO)

- Built an end-to-end platform connecting patients, dentists, and clinic admins with geolocation clinic search, slot-based appointment booking, and real-time chat via Socket.IO
- Integrated a Hugging Face AI model for automated dental cavity detection from X-ray uploads, with confidence scoring and doctor-review overrides
- Designed MongoDB schemas (users, appointments, reports, images) with geospatial queries (\$geoNear) for clinic search
- Implemented secure authentication using short-lived JWT access tokens with refresh-token rotation, plus rate limiting and CORS isolation
- Generated clinical PDF reports (treatment plans, prescriptions, cost estimates) using PDFKit
- Code: github.com/A34mr

Network Configuration and Troubleshooting Lab

2024

Cisco Networking Academy — Academic Project

- Configured switches and routers for end-to-end connectivity in a simulated enterprise network using Cisco IOS and VLAN segmentation
- Designed IPv4/IPv6 addressing schemes and verified connectivity across subnets using ping and traceroute
- Applied security practices including access control lists, port security, and SSH remote access

WORK EXPERIENCE

Software Engineering Trainee

Jul 2023 – Sep 2024

Information Technology Institute (ITI) | Cairo, Egypt

- Completed an intensive software engineering program covering C++, object-oriented design, and structured problem-solving
- Developed console-based applications in C++ demonstrating data structures, algorithms, and dynamic memory management
- Collaborated with peers on group projects, building modular, maintainable code with version control workflows

Professional Certificate Program

Apr 2023 – May 2024

Information Technology Industry Development Agency (ITIDA) | Cairo, Egypt

- Earned a professional certification validating software development fundamentals, debugging, and industry-standard coding practices

EDUCATION

Bachelor of Computing and Information Technology

Sep 2022 – Jul 2026

Egyptian E-Learning University (EELU) | Egypt

- Coursework: programming languages, computer networks, data structures, algorithms, OOP, relational database design (MySQL), and web development fundamentals

CERTIFICATIONS

- CCNAv7: Introduction to Networks — Cisco Networking Academy, May 2024
- HCIA – Artificial Intelligence (20 hours) — Huawei / EELU Continuing Learning Center, 2025
- Advanced Data Analysis (50 hours, Score: 80%) — Data Pill, Aug 2025

LANGUAGES

Arabic: Native | English: Professional Working Proficiency

SOFT SKILLS

Teamwork, analytical problem-solving, adaptability to new technologies, creative thinking, and effective communication within cross-functional teams.
